

South East Diamonds for Investment & Growth

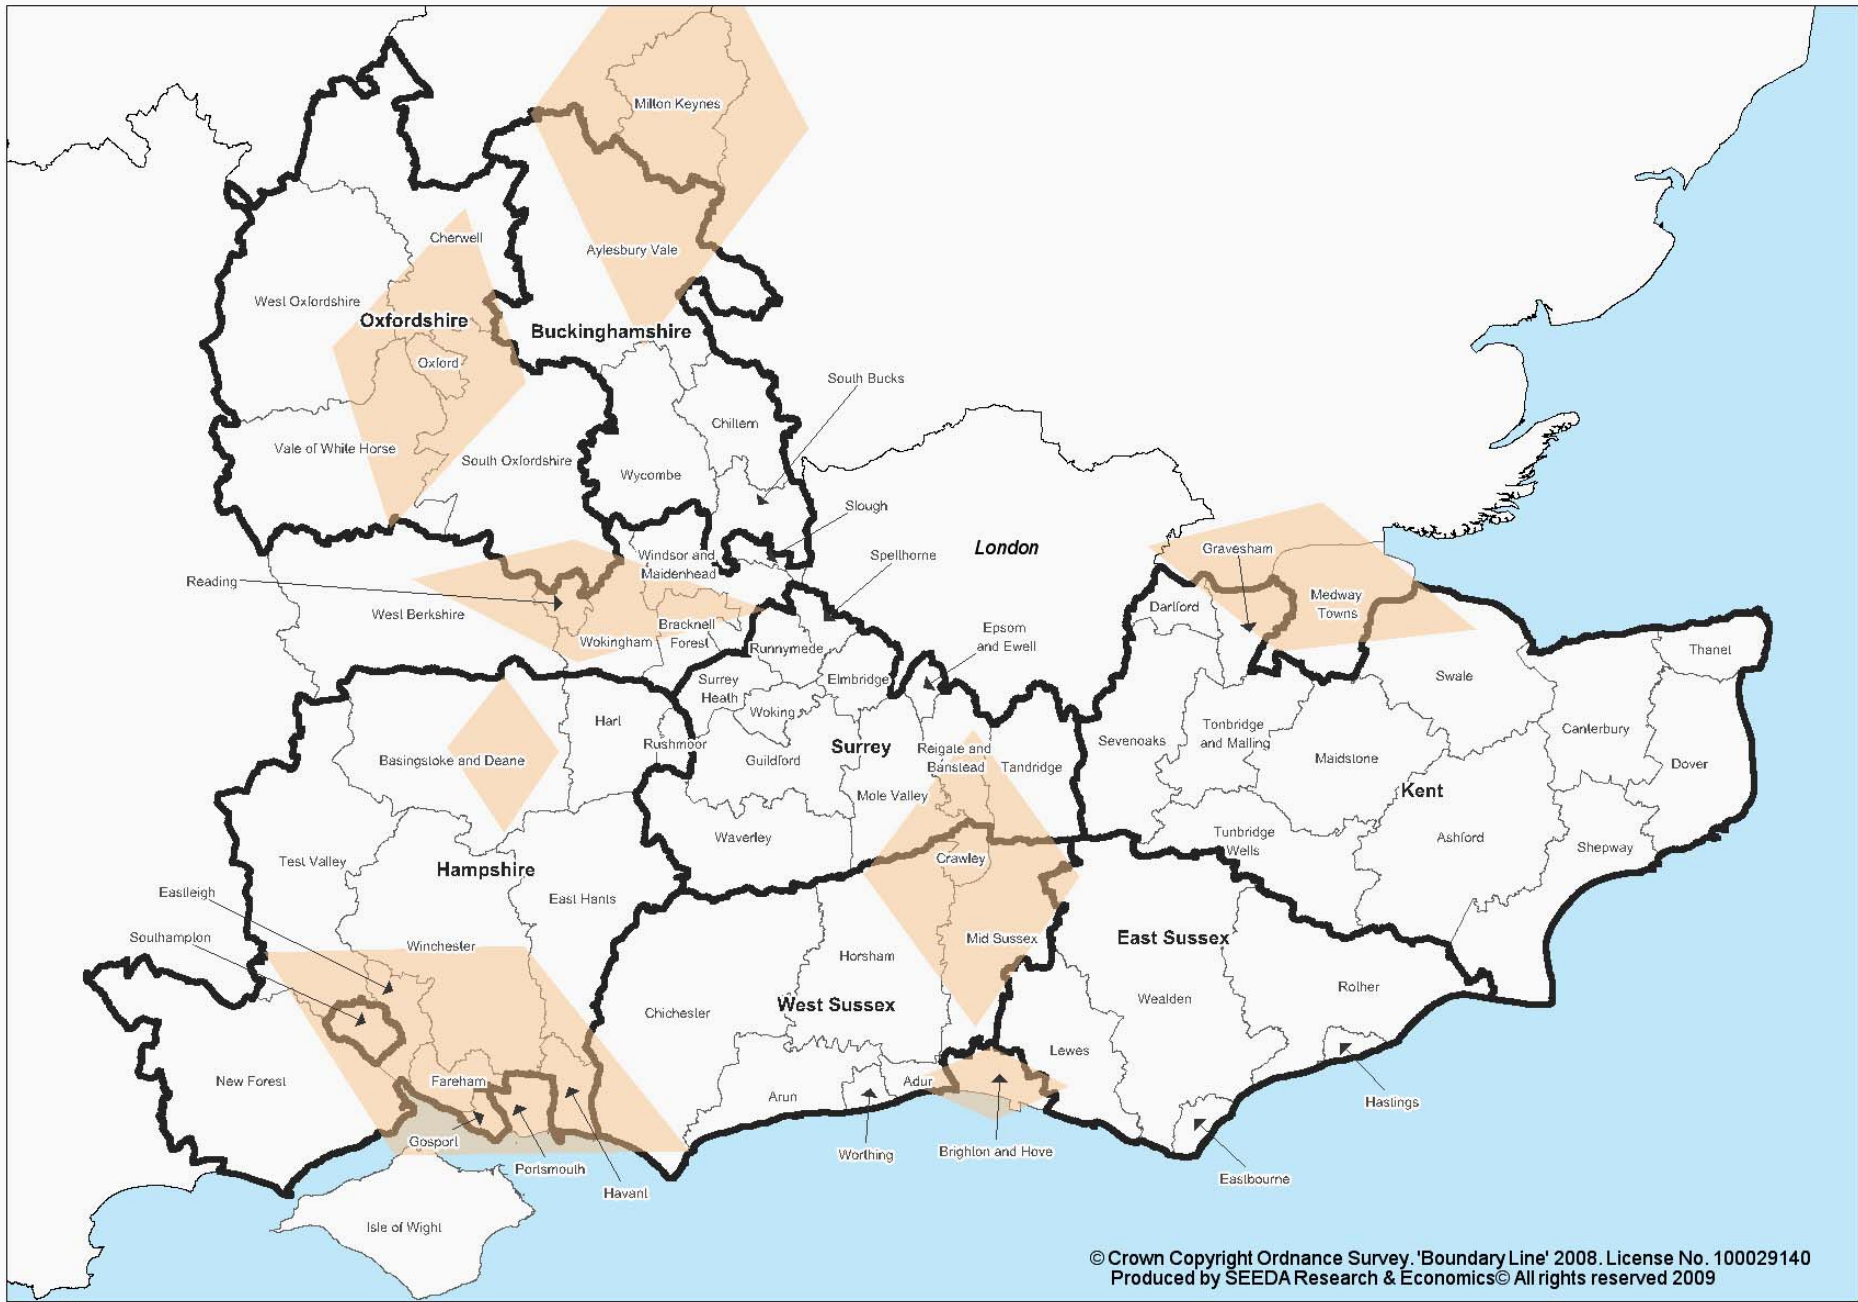

Presentation to the SEEDA Board
18th June 2009

Cllr Andrew Finney, SEDFIG Chair
Michael Coughlin, Chair, SEDFIG Chief Executives

Outline

1. Diamonds – Characteristics
2. Joint working & shared expertise
3. The SEDFIG Partnership
4. What can we do for SEEDA?
5. How can SEEDA help?

Diamonds - Characteristics

- A response to the place based focus of the 'Northern Way' and the Core Cities.
- First designated in 2006 RES, recognised in SE Plan and February 2009 Regional Funding Advice.
- "Eight major concentrations of growth potential which can act as catalyst to stimulate prosperity across wider areas." (RES)

Diamonds - Characteristics

- GVA per capita growth above regional & national average:

Diamonds - Characteristics

- Diamonds account for 60+% of regional GVA.
- 55% of total regional employment.
- 105,000 net additional dwellings provided across the wider Diamond areas 2001 – 2007.
- 50% of the planned housing growth in the region to 2026.
- Ecological footprint per capita exceeding the UK average in 7 of the 8 Diamonds.

Collective Strengths

- Strong record of delivering growth
- Delivery of housing growth
- Proximity to London – the ‘super city-region’
- Connectivity & international linkages
- World-class knowledge economy & research
- Sustainability Expertise
- Thriving cultural & creative industries.
- Commitment to growth and collaborative approach

Joint working & shared expertise

- Shared strengths, shared challenges, shared opportunities - proactive work to address these.
- Short-term economic threats, but long-term challenges and opportunities remain.
- Working together to maximise local strengths & enhance the SE position in the global economy.
- A new paradigm for partnership working across the South-east.
- Delivering more, better and/or quicker, together

The SEDfIG Partnership

- 9 urban authorities at the core of the RES 'Diamonds'.
- County Council representation.
- Working and reporting through local & sub-regional partnership arrangements.
- Networking & Learning Events to communicate with wider stakeholders.
- Policy Groups – EF, Skills & Knowledge Economy
- Website – www.southeastdiamonds.org.uk

Aims & Objectives

- **Generate 45% of SE GVA growth to 2016.**
- **Deliver 50% of planned housing growth in the SE to 2026.**
- **Stabilize ecological footprint by 2014, reduce by 30% by 2026.**
- Underpinned by a metrics framework
- Long term focus whilst taking account of short-term challenges.

From 'thinking' to delivering

- Sub-regional working
- Ecological Footprint 'No Nonsense' Guide
- First successful joint bid for ESF funding for Eco-Advantage Project (Medway, Reading, Basingstoke & MK)
- Diamonds signing up to the 'Skills pledge' and utilising Train to Gain
- Knowledge Economy seminars to share learning across the region

What can we do for SEEDA?

- Shared priorities - working together to deliver RES priorities through sub-regions & LAAs
- Leverage & a platform – for dialogue with the drivers of SE growth.
- Research – into drivers and effects of growth in the SEDFIG.
- A developing voice to government & business – on behalf of the catalysts of the SE.

What can we do for SEEDA?

- A sustained focus on the areas vital to delivering future growth and prosperity.
- Scope for Joint Investment Planning.
- Eco-footprint – base lining, guidance and delivery of step change. Green & clean technology.
- Knowledge Economy Group – working with business and universities to remove barriers.
- Support and endorsement of IGTs, working together to deliver growth.

Shared Challenges

- Economic Situation
- Skills & Employability
- Tackling localised deprivation
- Social & Physical Infrastructure Pressures
- Enterprise, Innovation & Expansion
- Climate Change & Environmental Impact

How can SEEDA help?

- Maintaining the focus on the SEDFIG.
- Providing certainty on medium-term funding & support.
- Expedition & speed on future projects / priorities
- Inward investment – support & intelligence.

How can SEEDA help?

- Using regional & national influence – broker for other agencies / government.
- Specialist expertise & support.
- Place-based focus – targeting of initiatives to secure economies of scale & efficiencies.
- Positioning ahead of Spring 2010.
