Freedom of Information request – Enterprise Education

Your request is:

I am looking to investigate how enterprise culture is being developed in the south east. I understand that there has been a recent tender for embedding Enterprise Education in the South East Further Education (FE) Sector and as part of my research in this field I would like to understand the types of initiatives there are out there.

As such under the freedom of information act I would like to see the winning tender document and other submissions which came second and third place. I appreciate that financial information is commercial, so I am happy just to receive the sections which do not include the financial information.

Please can you send me electronic copies

Information requested

As we have explained in our email correspondence with you, this was a joint initiative with the National Endowment for Science, Technology and the Arts (NESTA). NESTA carried out the procurement and holds the relevant information. With your agreement we have transferred your request to NESTA. The contact for your request at NESTA ... and the email address to use for correspondence ... is: information@nesta.org.uk. The NESTA telephone number is: 0207 438 2500.

SEEDA is able to provide you with two recent pieces of research that you may find useful:

- Enterprising Further Education – Demand Study (January 2008)
- Enterprise and Entrepreneurship Provision in the Further Education Sector: A pilot study in the South East Region (September 2007)

Copies are attached with this letter.
